PROFESSIONAL SUMMARY

B.Tech Information Technology student with expertise in React.js and frontend development. Skilled in building responsive web interfaces using HTML5, CSS3, JavaScript, and React, consuming REST APIs, and using Git for version control. Seeking a React Developer role at Tech Solutions Pvt Ltd to leverage technical skills in building reusable components and responsive user interfaces.

TECHNICAL SKILLS

- React.js
- JavaScript
- HTML5
- CSS3
- REST APIs
- Git
- GitHub
- Tailwind CSS
- Node.js
- Express.js
- MySQL
- MongoDB
- Java
- Python
- C++
- VS Code

EDUCATION

- B.Tech — Information Technology, Guru Tegh Bahadur Institute of Technology (2023 – 2027)
- Class XII, Example Senior Secondary School (2023)

PROJECTS

- CareerSync AI — Frontend Application: Developed a responsive multi-page frontend using React and Tailwind CSS. Implemented client-side routing using React Router, created reusable UI components, and integrated frontend components with REST APIs.
- Online Quiz System: Developed a Java-based quiz application implementing question management, answer validation, and score calculation using object-oriented programming concepts.
- Employee Management System: Developed an employee management application using Python and MySQL, implementing separate admin and employee functionality and database operations.

CERTIFICATIONS

- Introduction to Web Development — Example Learning Platform, 2025
